WESTSIDE STREET CONSTRUCTION PROJECT

The Council met in Work Session to discuss the Westside Street Construction Project. Bolton & Menk has performed a Feasibility Study and has also provided the Council with several options for assessment by varying cost apportionments. There were different views by Council on changing the Assessment Policy. When asked if the streets could just be milled and overlaid, Andrew Budde of Bolton & Menk reported that when you have streets that are in the shape such as 2<sup>nd</sup> Street, an overlay would only be a short term fix. The need is to repair the road bed to have the asphalt last. In just looking at the numbers/cost, the Council has a difficult time moving forward. They will look at the issue in another year.

ADJOURN

There being no further business, the meeting was adjourned at 7:45 p.m.
